Mother Teresa Institute of Science and Technology (MIST)

Attendance and Academic Regulations

Official-website-based knowledge document for the CampusConnect AI RAG project

• The official MIST website links to Academic Regulations and academic calendars under its Academics/Autonomous sections.

• The official M24 B.Tech Academic Regulations PDF is for B.Tech regular students with effect from academic year 2024–25.

• The M24 document describes a four-year, eight-semester B.Tech programme, normally completed in a minimum of four and maximum of eight academic years, with 160 credits required for the degree.

• The regulations describe each academic year as two semesters and each semester as 22 weeks with at least 90 instructional days.

Important limitation: The official M24 PDF must be consulted directly for the exact attendance percentage, condonation provisions and shortage-of-attendance consequences. This summary intentionally does not invent an attendance threshold.

• Use the regulation applicable to the student's admission batch (for example, R22 or M24). Do not apply M24 rules automatically to R22 students.
